

## *Your Premier Party Rental Company*

1155 Route 9, Wappingers Falls, NY (845) 298-0011  
1 Precision Road, Danbury, CT (203) 744-2295  
20 Putnam Drive, Cheshire, CT (203) 250-6600

**\*\*Be sure to pick a location free from overhead electrical power or telephone lines. Location should be free from trees that could damage or stain the inflatable. An unobstructed area should be maintained for 5 feet around and above the perimeter of the Amazin' Maze Wet or Dry Combo. \*\***

**\*\*Inflatable can be used wet or dry\*\***

### **Operating Instructions:**

1. Ideally this unit should be set up on a level lawn area. If you must set it up on asphalt or other hard surface, please place blankets or other padded materials beneath it. Unroll and position the inflatable and locate the 2 inflation tubes on the back of the inflatable. And find all of the zippers and flaps and close them securely to ensure no escaped air that would prevent the inflatable from blowing up completely (zippers and flaps can be located on the bottom portion of the inflatable or around all 4 sides).
2. Place the blower in an area that is not in a direct pathway. Be certain that the blower is on a flat, dry surface.
3. Find the 2 inflation tubes: one of the tubes will connect to the blower and the other tube gets tied off with the strap that is connected to it. Make sure that the tube that is strapped to the blower is on very securely.
4. Plug the blower into your dedicated 20 amp outlet. If an extension cord is needed, you must make sure that it is industrial strength. Stake down the inflatable in at least two opposite corners. Cover the stakes with a suitable material to protect children while they are using the inflatable.
5. Locate the on/off switch on the blower and turn it on. The inflation should take approximately 3 minutes. The blower must remain on for the duration of the time that the inflatable is occupied.

#### Deflating:

1. Clean out any debris from the inside and turn off blower.
2. Monitor inflatable as it deflates
3. Attempt to roll inflatable back up. (We realize this is very difficult!)

#### **\*\*Cautions:**

- Keep the front of the inflatable clear and accessible at all times.
- Please monitor children while they are using the inflatable. The maximum capacity is six children, and they should all be close in weight
- Children should always remove shoes when entering the inflatable.
- You need to make sure that you have a dedicated outlet for this inflatable. You must not plug anything else into the same outlet.
- Have riders return to front of ride on the opposite side of blower connection to avoid stepping over blower, extension cord & water hose.
- ***Adult supervision is required at all times.***
- If the inflatable is not completely dry, please do not roll up. Inflate and let run until dry. On a sunny day, it should only take about ½ hour.

**\*\*WARNING:** Keep hose away from blower or electrical shock may occur! Electrical shock may occur if blower or extension cord gets wet!
