18' Slide / Obstacle Combo

1155 Route 9, Wappingers Falls, NY (845) 298-0011
1 Precision Road, Danbury, CT (203) 744-2295
20 Putnam Drive, Cheshire, CT (203) 250-6600

****Be sure to pick a location free from overhead electrical power or telephone lines. Location should be free from trees that could damage or stain the inflatable. An unobstructed area should be maintained for 5 feet around and above the perimeter of the 18' Slide/ Obstacle Combo. ****

Operating Instructions:

1. Ideally this unit should be set up on a level lawn area. If you must set it up on asphalt or other hard surface, please place blankets or other padded materials beneath it.
2. **Unroll and position the inflatable and locate the 2 inflation tubes on the inflatable. There are FOUR zippers and flaps that need to be closed securely to ensure no escaped air that would prevent the inflatable from blowing up completely (One flap is located on top left back corner, one located middle back, one under blower and one on front left side of inflatable.**
3. Place the blower in an area that is not in a direct pathway. Be certain that the blower is on a flat, dry surface free of leaves or debris.
4. Find the 2 inflation tubes: one of the tubes will connect to the blower and the other tube gets tied off with the strap that is connected to it. Make sure that the tube that is strapped to the blower is on very securely.
5. Plug the blower into your dedicated 20-amp outlet. If an extension cord is needed, you must make sure that it is industrial strength. The cord needs to be 50 feet or less. Stake down the inflatable in at least two opposite corners. Cover the stakes with a suitable material to protect children while they are using the inflatable.
6. Locate the on/off switch on the blower and turn it on. The inflation should take approximately 3 minutes. The blower must remain on for the duration of the time that the inflatable is occupied.

Deflating:

1. Clean out any debris from the inside of inflatable and turn off blower.
2. Monitor inflatable as it deflates
3. Attempt to roll inflatable back up. (We realize this is very difficult!)

****Cautions:**

- Keep the front of the inflatable clear and accessible at all times.
- Please monitor children while they are using the inflatable. The maximum capacity is six children, and they should all be close in weight
- Children should always remove shoes when entering the inflatable.
- You need to make sure that you have a dedicated outlet for this inflatable. You must not plug anything else into the same outlet.
- ***Adult supervision is required at all times.***
- If the inflatable is not completely dry, please do not roll up. Inflate and let run until dry. On a sunny day, it should only take about ½ hour.

If you have any questions or concerns, please call us immediately
